Joefel Mal-ang Lato

Programmer / Web Developer

Cebu, Philippines | 09610414212 | joefellato215@gmail.com

PROFESSIONAL PROFILE

Programmer and Web Developer with a strong interest in building practical, responsive, and user-focused websites and web applications. Experienced in developing modern web interfaces, working with programming technologies, and turning ideas into functional digital solutions. Passionate about continuous learning, problem-solving, and using technology to create useful products and improve real-world processes.

EDUCATION

Colegio De San Antonio De Padua (CSAP)

Computer Engineering — Undergraduate

Degree Not Completed

PROJECTS & PRACTICAL EXPERIENCE

Prometheus Market

E-commerce / Full-Stack Web Application

Developed a full-stack e-commerce platform with product management, inventory intelligence, order management, customer features, analytics, authentication, and responsive web interfaces using Python, Flask, JavaScript, SQLite, HTML5, and CSS3.

Miguel Lechon

Client Project • Business Website / Web Application

Designed and developed a responsive business website for Miguel Lechon, a local lechon business, as a client project. Built the website to present products and pricing clearly, improve customer inquiries and ordering, and provide a mobile-friendly experience across devices. Implemented frontend and backend functionality using HTML5, CSS3, JavaScript, Python, and Flask.

Oculus AI

AI Assistant / Python Project

Developed a Python-based AI assistant project focused on voice interaction, automation, and practical assistant functionality.

Personal Portfolio

Responsive Web Development

Built a responsive personal portfolio website to showcase projects, technical skills, and professional work.
